

Lohmann & Van Sinderen Prizes for Undergraduate Printing and Design

ELIGIBILITY

Eligible pieces must have been planned and executed in the past academic year by a current Yale undergraduate. Acceptable submissions include print publications and ephemera, as well as websites and mobile apps.

Print publications and ephemera entries can be made by both digital and traditional methods, although final renditions cannot be screen-based. Websites and mobile apps should include a pdf that shows key screens as well as directions for viewing or download.

Yale graphic design or letterpress printing classwork may be entered, but professional design studio work, from an internship for example, will not be considered.

The deadline for submissions is 1:30 pm on Friday, April 29, 2022. You may submit as many entries as you would like. Visit lohmann.yale.edu to view past entries.
